## General Information (continued)

### Risk Measurement and Global Exposure

The Management Company uses a risk management process that enables it to monitor and measure at any time the risk of the portfolio positions and their contribution of the overall risk profile of the sub-funds. In accordance with the law of December 17, 2010, as amended, and the applicable regulatory requirements of the Commission de Surveillance du Secteur Financier "CSSF", the Management Company reports to the CSSF on a regular basis on the risk management process. The Management Company ensures, based on appropriate and reasonable methods, that the overall risk associated with financial derivative instruments does not exceed the net asset value of the portfolio.

This means that the global exposure relating to the use of financial derivative instruments may not exceed 100% of the net asset value of the sub-fund and, therefore, the overall risk exposure of the sub-fund may not exceed 200% of its net asset value on a permanent basis.

All sub-funds use the commitment approach in order to monitor and measure the global exposure. The global exposure of the sub-funds is calculated based on the commitment approach in accordance with the methodology described in the ESMA guidelines 10-788.

### Remuneration

YELLOW FUNDS SICAV adopted the Remuneration Policy of the Mediobanca Management Company S.A. (the "Management Company").

The Remuneration Policy is aimed at ensuring that any relevant conflicts of interest can be managed appropriately at all times and sets out practices for those categories of staff, including senior management, risk takers, control functions, and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profile of the sub-funds, that are consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of those sub-funds.

This Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company, the Funds under management and the investors in those Funds and includes measures to avoid conflicts of interest. In addition, the remuneration policy adopted applies the principles laid out under the UCITS Directive.

#### *Identified staff*

The UCITS Directive requires the Management Company to identify the categories of staff whose professional activities have a material impact on the risk profiles of the sub-funds.

The identified staff for the purpose of this Remuneration Policy are Mr. Fabio Gabriele and Mr. Fabio Ventola as Conducting Officers of Mediobanca Management Company S.A., Mr. Alessandro Ragni as Board Member of Mediobanca Management Company S.A., Mr. Giovanni Mancuso and Mr. Massimo Amato as Independent Members of the Board of Mediobanca Management Company S.A., and Mr. Giorgio Paleari as Head of Internal Audit of the Parent Company (Mediobanca S.p.A.).

#### *Structure of remuneration*

1. Fixed remuneration
2. Variable remuneration

The Management Company dedicates itself to collective asset management by managing a fund portfolio. Therefore, the variable component is predominantly established on a quantitative basis according to the actual profitability of the Management Company, taking into account any risk alignments.

The amount of individual bonuses may vary at the discretion of the management, according to assessments made regarding compliance with the business model, the attainment of targets and the absence of any critical situations or other prejudicial factors (i.e. in relation to Risks, Compliance and Anti-Money Laundering and Human Resources).

To measure performance, this discretion will be accompanied by a performance measurement system introduced at the start of each financial year in line with the allocated budget. The system will be quantitative and qualitative in nature and will consider corrective elements linked to the areas of compliance referred to above. The guidelines for the incentive scheme are determined in accordance with the policies of Mediobanca S.p.A. and the Mediobanca Group.
